5. Real time cancer care

Galina Velikova, University of Leeds

The research, called eRAPID, will evaluate a new system for patients to report the symptoms and side effects of cancer treatment via the internet. A patient's reports about how they are feeling are immediately displayed in electronic hospital records, so clinicians can use them to improve and streamline care.

The aim is to improve the safe delivery of treatment, enhance patient experience and standardise the documentation of symptoms and side effects. The research will take place in Leeds, Bristol and Manchester with patients receiving chemotherapy, radiotherapy and surgery.

Electronic patient self-Reporting of Adverse-events: Patient Information and aDvice

And some moments of despair

Together we will beat cancer

CANCER RESEARCH UK

Cancer Research UK's Research Strategy

2009/10 – 2013/14

In research, the journey can
be as important as the result

Today- Reflect on the journey with colleagues and friends

Programme

TIME	
9.30-10.00	Registration and coffee
MORNING SESSION	Chair: Dr Dan Stark
10.00-10.10	Professor Galina Velikova- Welcome message
10.10-10.40	Professor Peter Selby Patient-centred care: the role of quality of life and psychosocial research
10.40-11.10	Dr Penny Wright Psychosocial oncology and clinical practice research in Leeds: 1996-present
11.10-11.40	Coffee break
11.40-12.10	Guest speaker: Professor Neil Aaronson- The Netherlands Cancer Institute Behavioural and psychosocial intervention trials in oncology: The case of the Netherlands Cancer Institute
12.10-12.25	Dr Yvette Oade- Medical Director, Leeds Teaching Hospitals Trust NHS perspective: From research to improving patient care
12.25-12.45	General discussion
12.45-1.45	Lunch
AFTERNOON SESSION	Chair: Dr Kate Absolom
1.45-2.15	Barbara Woroncow and Geoff Ogden Patient and Public Involvement perspective: Presentation from our Research Advisory Group
2.15-2.45	Guest speaker: Professor Jose (Chema) Valderas- University of Exeter Systematic reviews and guidance on implementing PROs in clinical practice
2.45-3.05	Dr Dan Stark- Remote follow-up of germ cell cancer patients with online PROMs
3.05-3.20	Dr Alexandra Gilbert- PROMs for monitoring radiotherapy toxicity
3.20-3.40	Professor Galina Velikova- Patient Centred Outcomes Research: Focus on the future
3.40-4.00	General discussion
	Coffee and Networking
